**Item 18. CONTRACT FOR FOREIGN GOVERNMENT OR INTERNATIONAL ORGANIZATION**

Leave blank if Item 9 is coded Z (GSA or VA).

Leave blank if Item 16 is coded UNICOR (DUNS=626627459).

**Item 19A. USE OF EPA DESIGNATED PRODUCTS**

Leave blank if Item 9 is coded Z (GSA or VA).

The Resource Conservation and Recovery Act (RCRA), Section 6002 and Executive Order 13101 require the purchase of Environmental Protection Agency (EPA) EPA-designated products with a required minimum recovered material content as described in an agency's Affirmative Procurement Program (APP). This list of EPA-designated products is available at <http://www.epa.gov/cpg>. This requirement applies to all contracts that require EPA-designated products. When purchasing a product or products on this list without the required minimum recovered material content, a written justification based on exception codes B, C, or D below is required by FAR 23.405(c). If more than one exception applies or more than one justification was completed, report the predominant exception code or the code for the highest cost EPA-designated item for which a justification was completed. Select one of the following:

- Code A - EPA-designated product or products were purchased and all contained the required minimum recovered material content.
- Code B - EPA-designated product or products were purchased without the required minimum recovered material content and a justification was completed based on inability to acquire the product(s) competitively within a reasonable time (FAR 23.405(c)(1)).
- Code C - EPA-designated product or products were purchased without the required minimum recovered material content and a justification was completed based on inability to acquire the product(s) at a reasonable price (FAR 23.405(c)(2)).
- Code D - EPA-designated product or products were purchased without the required minimum recovered material content and a justification was completed based on inability to acquire the product(s) to reasonable performance standards in the specifications (FAR 23.405(c)(3)).
- Code E - No EPA-designated product(s) were required.

**Item 19B. USE OF RECOVERED MATERIAL AND WASTE REDUCTION CLAUSES (STARTING FY 2002)**

Report this code only if the contract includes FAR 52.223-4, Recovered Material Certification, or FAR 52.223-4, Recovered Material Certification and FAR 52.223-9, Estimate of Percentage of Recovered Material Content for EPA-Designated Products or FAR 52.223.10, Waste Reduction Program.**
- **Code B - Report this code if neither clause is included in the contract.**

**Item 20. PERFORMANCE-BASED SERVICE CONTRACTING (PBSC)**

Leave blank if Item 16 is coded UNICOR (DUNS 626627459).

Leave blank if Item 9 is coded Z (GSA or VA).

Leave blank if Item 18 is coded Y.

Leave blank if, PSC (item 12), product code is numeric or if service code begins with 'C', 'S1', 'Y'.

Report Y if the contract meets the requirements described below.

Report N if the contract does not meet the requirements described below.

Performance-Based Service Contracts (PBSC) define work in measurable, outcome – oriented terms. PBSCs do not use imprecise or broad statements of work; prescribe how to perform the work; or specify job categories or personnel qualifications (i.e., resumes). FAR 37.601 defines the minimum essential elements of a PBSC. A PBSC –

- a. Describes the requirements in terms of results required rather than the methods of performance of the work;
- b. Uses measurable performance standards (i.e., terms of quality, timeliness, quantity, etc.) and quality assurance surveillance plans (see 46.103(a) and 46.401(a));
- c. Specifies procedures for reductions of fee or for reductions to the price of a fixed-price contract when services are not performed or do not meet contract requirements (see 46.407); and
- d. Includes performance incentives where appropriate.

For FPDS reporting purposes, a minimum of 80% of the anticipated obligations under the procurement action must meet the above requirements.

PBSC applies to service codes. Product and Service Code (PSC) must begin with 'A' through 'Z' except for Architect/Engineering (A/E) (PSC begins with 'C'), Utilities (PSC begins with 'S1'), Construction (PSC begins with 'Y'). NAICS must not begin with '233' (except for 233110), '234', or '235' (Construction).

The dollar threshold for reporting PBSC is for procurement actions with an estimated value over \$40025,000, and the action date is equal to or greater than October 1, 1999.

NOTE: Product and Service Codes should always be selected based upon the services being provided, not the source of funding.

**Item 21. BUNDLING OF CONTRACT REQUIREMENTS**

**Item 48. FOR AGENCY INTERNAL USE**

## OFFICIAL FINAL

This item is reserved for agencies to collect data for their own internal use. This data need not be reported to FPDS.

<b>C.3 UNIQUE REPORTING REQUIREMENTS</b>
--

a. **Reporting Orders under Indefinite Delivery Contracts (except Federal Schedule Contracts) and Basic Ordering Agreements.**

Indefinite delivery contracts (including task order and delivery order contracts) and basic ordering agreements are not reportable to FPDS since the obligations/deobligations are reported on the orders. (See Code C in Item 9 (Kind of Contract Action), for additional guidance.) Procuring agencies are required to provide authorized ordering agencies the necessary data to report a complete ICAR for orders against indefinite delivery contracts (including task and delivery order contracts) and basic ordering agreements.

b. **Reporting Federal Schedule Contracts.**

The General Services Administration (GSA) and Department of Veterans Affairs (VA) shall report required data to establish the federal schedule contracts in the FPDS not later than 30 days following the end of the month in which the schedule was awarded. The data items that must be reported by GSA or VA to load the federal schedule contracts into the federal schedules contract file are shown in column 2 of the following chart entitled "Processing Orders Under Federal Schedule Contracts". This will permit special processing by the FPDC prior to reporting of the orders by the ordering agency during the normal submission schedule in Part II.A.2.

c. **Reporting orders against Federal Schedule Contracts.**

When an order against a federal schedule contract is reported, the ordering agency shall report the data items shown in column 3. The FPDS searches the federal schedules contract file for the schedule contract number. If the contract number is not found, the order report is rejected. If a match is found, the data items shown in column 4 are filled using the data in the federal schedules contract file. Those items and the items reported by the ordering agency (column 3) are placed in the ICAR file for the order.

If an ordering agency reports data shown in column 4, the data will be edited and matched against the federal schedules contract file data. If there is a discrepancy, the ordering agency will be notified by the FPDC. The ordering agency shall be responsible for reconciling the differences with GSA or VA and have those agencies correct the federal schedule contract file. If the ordering agency report is in error, no action is required in the FPDS because the order report will contain the GSA or VA federal schedule contract data.

**d. Consolidated Reports (DOD Only)**

- (1) Orders placed against indefinite delivery contracts awarded by the Defense Fuel Supply Center, the Defense General Supply Center (for petroleum and petroleum products), and the Military Sealift Command (for ocean transportation). The estimated value of the orders to be placed in each fiscal year against each contract is reported on a separate SF 279 in the appropriate fiscal year by the DOD central data collection point.
- (2) Air Mobility Command awards for international airlift services. These actions are reported by the DOD central data collection point at the end of each operating month by the issuance of one master SF 279 for each airlift contract.
- (3) Utilities vouchers processed by the U.S. Army Contracting Command, Europe (USACCE), for the purchase of utilities from municipalities, such as gas, electricity, water, sewage, steam, snow removal, and garbage collection. These actions are consolidated monthly and the cumulative dollar amount reported on a separate SF 279 by the DOD central data collection point.
- (4) Orders placed by Defense Commissary Agency for resale items in excess of \$25,000. Orders under each contract shall be consolidated monthly and cumulative dollar amounts reported by the DOD central data collection point on a single SF 279 for each contract.

- (2) Funds held in trust accounts for foreign governments or international organizations (including Foreign Military Sales) or procurements for foreign governments or international organizations regardless of the nature of the funds.
- (3) Multiple definitive actions with the same contract number (e.g. reporting unclassified information on classified contracts or actions under master ship repair agreements). Under such circumstances, DOD may report the DD350 number in Item 3 on the SF 279 to create a unique record for each contract action.

**f. Telecommunications from Regulated Carriers**

Contract actions for telecommunications from regulated carriers shall be reported. Contract actions may be aggregated by regulated carrier using one SF 279 for each carrier so long as the contract actions are reported within the fiscal year.
